

School Groups

AT YMCA CAMP IMMOKALEE

Learning and Fun Outside the Classroom

As a teacher or administrator, you know the value of hands-on learning and the impact it can have outside the classroom. We offer two school programs tailored just for that: one focused on adventure and team-building, and the other aligned with curriculum goals for an educational deep dive. Both options are crafted to inspire curiosity, strengthen teamwork, and encourage personal growth—all set against the backdrop of the great outdoors.

Option 1: Fun Field Trips

Perfect for bonding, adventure, and creating lasting memories

Our Fun Field Trips are ideal for schools looking to provide students with a day (or overnight) of exciting, team-building activities. These outings focus on adventure, connection, and confidence-building in a fun and supportive environment.

Activities

- **Adventure Course:** Students can challenge themselves on the ropes course, zipline, and climbing wall.
- **Lake Activities:** Enjoy kayaking, canoeing, or paddleboarding on Lake Brooklyn—great for group bonding.
- **Team-Building Games:** Engaging activities that encourage collaboration, communication, and friendly competition.
- **Other Activities:** Archery, Barn Visits, Arts & Crafts, Camp Games — we can tailor activities to your group.

Sample Itinerary

- 9:00 AM – Arrival & Welcome
- 9:30 AM – Team-Building Games
- 10:30 AM – Adventure Course (ropes, zipline, or climbing)
- 12:00 PM – Lunch
- 1:00 PM – Lake Activities (canoeing, kayaking, paddleboarding) or Big Camp Game
- 3:00 PM – Wrap-Up & Departure

Option 2: Educational Field Trips

Hands-on learning experiences with a focus on environmental education and outdoor skills

Our Educational Field Trips are designed to align with school curricula, focusing on outdoor education, environmental science, and essential life skills. These day trips offer engaging, interactive sessions that bring classroom concepts to life in nature.

Activities

- **Nature Walks & Environmental Education:** Guided hikes teach students about local ecosystems, flora, and fauna, and encourage environmental stewardship.
- **Outdoor Skills:** Activities like orienteering, survival skills, and archery promote problem-solving and resilience.
- **Water Safety & Aquatics:** Students learn essential water safety skills and enjoy hands-on practice with kayaking or canoeing.
- **Team-Building Challenges:** Tailored games that develop communication, trust, and leadership in an educational context.

Sample Itinerary

- 9:00 AM – Arrival & Welcome
- 9:30 AM – Nature Walk & Environmental Education
- 11:00 AM – Outdoor Skills (orienteering, archery, or survival skills)
- 12:00 PM – Lunch (coordinated with a local caterer)
- 1:00 PM – Water Safety Session on Lake Brooklyn
- 3:00 PM – Wrap-Up & Departure
